PROFILE

Software developer with experience in enterprise, retail and government application work. Builds across interfaces, business rules and databases using C# / ASP.NET, JavaScript, TypeScript, Python, Oracle and PostgreSQL. Oracle Certified Professional with hands-on production support, SQL tuning, migration, backup and recovery experience.

TECHNICAL SKILLS

Applications: C# / ASP.NET, JavaScript, TypeScript, Python, Java (Android), Node.js, Electron, React, Next.js, HTML, CSS, REST API integration.
Data: Oracle, SQL, PL/SQL, PostgreSQL, SQL Server, query tuning, schema design, stored procedures and triggers.
Operations: Git, GitHub Actions, IIS, Linux, Oracle RMAN, Data Pump, backup and recovery, production troubleshooting.

EXPERIENCE

Software Developer | Al Adrak Trading & Contracting

Muscat, Oman | Jun 2025 - Present

- Develop ERP features and support business workflows across construction, pharmacy and warehouse operations.

- Built purchase-order budget controls linked to BOQ budgets, authorized revision workflows and revision reporting.

- Developed an approval-notification service using C# / .NET, with a Python prototype, and dashboards for sales, profit, income, QA/QC, HSE and other departments.

- Built Android ERP access and business-data chatbot workflows; worked on customer credit controls, cost reports, SQL/PLSQL reporting and database operations.

Software Developer | Agile Labs

Bengaluru, India | Apr 2024 - Apr 2025

- Delivered enterprise application modules and database backends for clients in India and Oman.

- Worked on government project monitoring and other CMIS modules, business reporting, query optimization, onboarding data loads and production support.

Associate Software Developer | World of Brands

Bengaluru, India | Oct 2022 - Nov 2023

- Built retail point-of-sale functionality using Electron, Node.js and PostgreSQL, including checkout and inventory workflows.

- Designed and maintained database schemas, optimized queries and supported database backup and restoration.

Software Trainee | InnoStex Technologies

Bengaluru, India | Jan 2021 - Sep 2022

- Worked on Oracle and PostgreSQL migrations, query debugging, server configuration and application maintenance.

SELECTED PERSONAL PROJECTS

EuroJob Assistant: Next.js, TypeScript and PostgreSQL application for collecting job postings, explaining profile-based matches and producing evidence-grounded application documents. Repository.

pg-perf-lab: Eight reproducible PostgreSQL performance cases with generated before-and-after EXPLAIN ANALYZE evidence. Repository.

POS development: Electron, Node.js and PostgreSQL desktop retail applications covering sales and inventory workflows.

EDUCATION AND CERTIFICATION

B.Sc. Computer Science | Sri Vidya College of Arts & Science | 2017 - 2020
Oracle Certified Professional | 2022
